

GHENA KAKEH

FRONT END DEVELOPER ...

SUMMARY :

An enthusiastic and detail-oriented Junior Frontend Developer with proficient knowledge in HTML and CSS, as well as third-party libraries such as React. Seeking to utilize my technical skills and expertise to provide value to the employer and contribute to successful projects both today and in the future. Aiming to take on new challenges and utilize my coding and debugging skills for developing new features and enhance the overall user experience

EDUCATIONAL

2019 Faculty of Informatics Engineering, University of Aleppo

WORK EXPERIENCE :

- To Do List App** : My tasks application allows the user to add new tasks, delete completed tasks, and modify if desired. It was programmed using HTML, CSS, and ReactJS
- Weather App** : It allows the user to choose his current city to show him the weather today, including temperature, humidity, wind direction and strength ... It was programmed using HTML, CSS, ReactJS and using open weather map api, axios
- Social media Application** : A social networking application that allows the user to browse the posts of other users and comment on them. He can also register to show him the possibility of adding a new post, and the personal page displays his posts. It was programmed using HTML, CSS, JavaScript, Axios and Tarmeez Academy API
